

Application Form
MCCSC Science 30081E
Science Research, Independent Study, (L)
Grades 11-12

Description

Science Research, Independent Study is a course that will provide you with unique opportunities for independent, in-depth study of one or more specific scientific problems. While enrolled in this course you will be required to maintain a scientific notebook, literature search notebook, complete reports and compete in a science project to be exhibited at a regional science fair and/or science symposium during the same school year; additionally, an end-of-course project or product may be required, such as a scientific research paper or some other suitable presentation of your findings. You will be matched with a business and/or higher education mentor to support, advise, and guide you in your work. You must be able to provide your own transportation and be available last block/period.
